WHO WE ARE

Where students learn to think sharper, work smarter & aim higher.

Since 2016, Alpha Academy has coached Class 9–12 students in Science, Mathematics, Physics and Commerce. NCERT-first teaching, a test every week and honest feedback help students turn steady effort into board-exam readiness.

FOUNDER & DIRECTOR

Sanjeev Verma

Physics · 10+ years of teaching

B.Tech (Electrical Engineering), LPU

Sanjeev Sir to his students. He founded Alpha Academy in 2016 and leads its Physics teaching.

OUR MISSION

To give every student clear concepts, disciplined practice and the confidence to perform at their best — in school, in board exams and beyond.

OUR VISION

To be the most trusted name for Class 9–12 Science, Maths, Physics and Commerce in our city — known not for promises, but for students who truly understand what they study.

Clarity

We explain until it makes sense, not until the period ends.

Consistency

Small, steady effort every week beats last-minute cramming.

Care

Every student is known by name and supported when they struggle.

Integrity

We give honest feedback and never oversell.

THE ALPHA METHOD

Four steps, repeated every week of the year

01

Learn

Concept-first classes built on NCERT, one idea at a time, so nothing is memorised without being understood.

02

Practise

Graded worksheets after every class — from NCERT basics to board-level and higher-order questions.

03

Test

A test every week and a full-syllabus mock before every school exam, always in the current board pattern.

04

Review

Every test is discussed, and every mistake is logged and practised again.

01

CLASS 9–10 · CBSE

Science & Maths

For most students, Science and Maths decide their Class 10 percentage — and their options in Class 11. We teach both from the NCERT basics up, test every week in the board pattern and finish early enough to revise properly.

BOARD	SESSION	MODE	TIMINGS
CBSE · NCERT	April – February 10 months	Classroom Sector 7, Karnal	Shared at counselling

PHYSICS · CHEMISTRY · BIOLOGY

Science

Board-year Science, taught the way the board marks it.

Every NCERT chapter taught concept-first, with demonstrations, numerical practice and CBSE-pattern tests.

WHAT'S INCLUDED

- ✓ Step-by-step numericals for Motion, Force, Light and Electricity
- ✓ Case-based and assertion–reason practice in the latest CBSE format
- ✓ Diagram and labelling practice for Biology and Optics
- ✓ Class 10 syllabus completed by December, then structured revision
- ✓ Full-length mock papers before the board exam

MATHEMATICS · STANDARD & BASIC

Maths

Precision, practice and board-ready presentation.

Every chapter taught with the reasoning behind each method, then practised until the method becomes automatic and every step earns its marks.

WHAT'S INCLUDED

- ✓ Daily practice sheets graded from basic to higher-order
- ✓ Weekly tests with step-marking, just like the board
- ✓ Proof-writing practice for the geometry chapters
- ✓ Separate practice tracks for Mathematics Standard and Basic
- ✓ Previous years' board questions, solved topic by topic

STUDY MATERIAL

Chapter-wise printed notes, practice worksheets, NCERT and Exemplar solutions, formula and definition sheets.

ASSESSMENT

Weekly chapter test, monthly cumulative test and a full-syllabus mock before every school exam.

FOR PARENTS

Parents are welcome to meet the teacher to talk about progress.

State board students can join a support track that follows their prescribed textbook — ask us about availability.

02

CLASS 11–12 · CBSE · BOARDS, JEE MAIN & NEET

Physics

Class 11 Physics is a big step up from Class 10. We start with the mathematical tools Physics needs, teach every chapter to board depth, then take it to JEE Main and NEET level. JEE Main and NEET are a special focus of our Physics teaching, led by Sanjeev Sir.

BOARD	SESSION	MODE	TIMINGS
CBSE · NCERT	April – February 10 months	Classroom Sector 7, Karnal	Shared at counselling

CLASS 11

The year Physics gets serious

All 14 NCERT chapters with a maths-ready approach and rigorous numericals, from vectors and kinematics to rotation and thermodynamics.

HIGHLIGHTS

- ✓ Maths-for-Physics module in the first two weeks
- ✓ Weekly tests in board (subjective) and MCQ formats
- ✓ Practical and viva preparation for the CBSE lab exam

CLASS 12

Boards, practicals and entrance basics

All 14 NCERT chapters completed by November, leaving December onwards for revision, sample papers and full-length tests.

HIGHLIGHTS

- ✓ Every board derivation practised, timed and checked
- ✓ Practical, investigatory project and viva preparation
- ✓ Full-length mock papers in the latest board pattern

SPECIAL FOCUS: JEE MAIN & NEET PHYSICS

Taught alongside the board syllabus — never instead of it.

- ✓ Vectors, differentiation and integration as tools for Physics
- ✓ Free-body diagrams, constraint and multi-step mechanics problems
- ✓ Electrostatics, current electricity and optics at entrance level
- ✓ Objective technique: elimination, estimation, dimensional checks

WHO IT'S FOR

CBSE Science students (PCM or PCB), including those preparing for JEE Main or NEET.

STUDY MATERIAL

Theory notes with solved examples, derivations booklet, board, JEE Main and NEET-level practice sheets.

ASSESSMENT

Weekly test alternating board and MCQ format, monthly cumulative test, full-length mocks.

03

CLASS 11–12 · CBSE

Commerce

Accountancy, Business Studies and Economics, built properly from day one. Join for the full stream or pick individual subjects.

ACCOUNTANCY

Journal to final accounts, partnership and company accounts, ratios and cash flow — drilled to board accuracy.

BUSINESS STUDIES

Principles and functions of management, with case-based practice and keyword-rich answer writing.

ECONOMICS

Statistics, micro and macroeconomics numericals step by step, plus Indian Economic Development.

APPLIED MATHS

An optional batch following the CBSE Applied Mathematics curriculum, for students who chose it at school.

FULL STREAM	SINGLE SUBJECT	SESSION	TIMINGS
Accountancy, BSt & Economics	Any one subject	April – February 10 months	Shared at counselling

CLASS 11

A strong start in new subjects

- Double-entry accounting on real-format worksheets
- Case-study practice for Business Studies
- Statistics and Microeconomics numericals, step by step
- A base for CA, CS, CMA, BBA or Economics later

CLASS 12

The board year, subject by subject

- Syllabus completed early, then timed sample papers
- Analysis of financial statements, ratios and cash flow
- Full-length mock papers in every subject
- Guidance on CUET, CA Foundation and university options

WAYS TO ENROL

Full stream
Accountancy, Business Studies and Economics, in one timetable.

Full stream + Applied Maths
All three subjects, with Applied Mathematics in an additional batch.

Single subject
Any one subject, including Applied Maths on its own.

WHO IT'S FOR

CBSE Commerce students, with or without Mathematics, preparing for the boards.

STUDY MATERIAL

Subject-wise modules, an Accountancy workbook, a case-study bank and an Economics diagrams sheet.

ASSESSMENT

Weekly subject test, monthly cumulative test and a full-syllabus mock before every school exam.

04

BEYOND THE REGULAR BATCHES

Special programmes

CLASS 9 & 10

Foundation Programme

Science and Maths together, planned as one.

- Full Science and Maths syllabus in one timetable
- Problem-solving and olympiad-style practice
- One plan that tracks Science and Maths progress together

CLASS 10 & 12 · JANUARY – MARCH

Board Exam Crash Course

Eight weeks. Full syllabus. Exam-ready.

- Complete revision with high-weightage question banks
- Timed full-length papers, checked and discussed
- Open to students from other institutes too

ASCAT 2027 · SCHOLARSHIP-CUM-ADMISSION TEST

Scholarships on tuition fee, based on your ASCAT score.

One test, two outcomes: a seat in the batch that suits your level, and a scholarship based on your score. Open to students moving into Classes 9, 10, 11 and 12.

WHAT THE TEST GIVES YOU

- **A seat in the batch that suits your level**
- **A scholarship on tuition fee, based on your score**
- **A clear picture of where you stand before the session starts**

TEST PATTERN

The full test pattern and the scholarship details are shared at registration, along with the date and time of your test.

HOW TO REGISTER

01 Message us on WhatsApp or register at the centre.

02 We share the test date, time and pattern with you.

03 Take the test; we share your result and any scholarship with you.

Test dates are announced on Instagram and WhatsApp.

HOW WE PREPARE FOR THE BOARDS

Steady effort, every week, is how we prepare for results day.

01

A test every week
in the current CBSE board pattern

02

A full mock
before every school exam

03

Every mistake reviewed
with the student, then practised again

04

NCERT first
then case-based and competency questions

ABOUT RESULTS

When we share board results, we share real ones: only with the written consent of the student and parent, and with the course the student took and how long they studied with us. Ask us at the centre.

WHY FAMILIES CHOOSE ALPHA

★ **5.0** on Google · 126 reviews (Nov 2026)

01 Focused, not scattered
Only Classes 9–12, and only the subjects we specialise in.

02 NCERT first, board-ready always
Every chapter builds from NCERT to CBSE case-based and competency questions.

03 Physics with the founder
Sanjeev Sir, Founder & Director, leads the Physics teaching.

04 Weekly tests, real feedback
Every test discussed in class and recorded in the student's progress file.

05 Doubts don't wait
Doubts are answered in class and after class, not left for later.

06 One centre, one standard
Every batch is taught at our Sector 7 centre in Karnal.

07 Study material that gets used
Notes, practice sheets and formula sheets for every chapter.

08 Free demo class first
Sit in a real batch and meet the teacher before you decide, with no obligation to join.

ADMISSIONS 2027–28 OPEN

Book a free demo class.

Sit in a real batch, meet the teacher and see how we teach — with no obligation to join.

★ **5.0** on Google · 126 reviews (Nov 2026)

01
Enquire or visit
Call, WhatsApp or walk in. We'll understand the student's class, board and goals.

02
Free demo class
Sit in a real batch and meet the teacher.

03
Placement test or ASCAT
Shows where the student stands and decides any scholarship.

04
Counselling
We recommend the right programme, batch and timing.

05
Admission
Submit the form and documents; study material is issued.

Fees and the refund policy are shared in writing at counselling, before any payment.
